## BY BULLETIN

**WANT ADS.**

**HOMESTEAD REGULATIONS.**  
Any even numbered section of Dominion Lands in Manitoba and the West Provinces excepting the reserved, may be homesteaded by any person the sole head of a family over 18 years of age, to the extent of 160 acres.

Application for homestead  
be made in person by the  
a Dominion Land Agency or  
entry by proxy may, however,  
at any agency on con-  
ditions by the father, m-

daughter, brother or sister of the homesteader.

An application for entry made personally at any office may be wired to the Sub-Agent, at the expense of the applicant, and if the land application is rejected, the cost of the

application is to have prior  
land will be held until the  
pers to complete the transac  
ceived by mail.

In case of "personation" o  
applicant will forfeit all p  
claim or if entry has been

An application for concealment must be made in person. The applicant must be eligible for homestead exemption. No other application will be received from an individual until that applicant has been disposed of.

Imp-quent to institution for cancellations the applicant for will be entitled to prior right. Applicant for cancellation in what particulars the homestead is in default.

A homesteader whose entry is subject of cancellation procedure

**Duties.**—A settler is required to perform the duties under one of the following plans:

(1) At least six months' residence and cultivation of the land during the term of three years.

(2) A homesteader may, if s/he so desires, perform the required duties by living on farming land solely by him, not less than one year, in order to be eligible for the same.

(3) If the father (or mother, if the father is deceased) of a home-  
owned residence on farm owned solely by him, not less  
(80) acres in extent, in the

(4) The term "vicinity" as used in the preceding paragraphs is defined as not more than nine miles.

(5) A homesteader intending to perform his residence duties in accordance with the above while living on or on farming land owned must notify the Agent for

Before making application, the settler must give six months in writing to the Commission on Indian Lands at Ottawa, of his intention to do so.

**Coal.**—Coal mining rights may be granted for a period of twenty years on more than 2,560 acres shall be owned by one individual or company. The royalty shall be at the rate of five cents per ton of coal collected on the merchantable coal.

age, or over, having discovered in place, may locate a claim of 100 feet.

The fee for recording a claim is \$100. At least \$100 must be expended each year or paid to the recorder in lieu thereof. When a claim is located, the locator must file a copy of the claim with the recorder.

The patent provides for the sale of a royalty of 2 1-2 per cent.

foot square; entry fee \$5, renewable.  
An applicant may obtain two dredge for gold of five miles term of twenty years, renewable at the discretion of the Minister of the Interior.  
The lessee shall have a dredge within one year of the expiration of the term.

of the lease for each five miles \$10 per annum for each mile leased. Royalty at the rate of 10 per cent. collected on the output at a credit \$10,000.

W. W. Deputy of the Minister of the

**ADVERTISEMENTS**

**TENDERS.**

Sealed Tenders addressed to the Deputy Minister of Public Works, and endorsed "Tender for Supplies" will be received at 1 o'clock, noon, April 30th. Bids must include drawings, material and specifications, cover necessary wire and other material.

had at the Public Works Department, or the office of the of Public Works, Armstrong, Gary. The successful tenderer expected to enter into a contract for the prompt delivery of material designated and to put up a

hand of 10 per cent. of contract value. The right is reserved to reject all bids or waive any defects.

**JOHN STOCK**  
Deputy Minister of Public Works  
Dated at Edmonton, this 8th  
April, 1908.

Don't be persuaded by the fact that imported salt on the grocer's shelves is cheaper than the economy. WINDSOR salt, at present prices, is the 'cheapest'.

in the end.

---

CITY WILL CONSIDER  
SALE OF RAILWAY

Two Offers to Purchase Have Been Made by Representatives of the British Capitalist, and the City Will Consider the Offers.

That Edmonton may soon enter into active negotiations for the sale of the street railway line already constructed, is the material fact which has been the subject of discussion in the city council last evening. Rumors of offers to be made along these lines by private companies, and the financial standing of the city, were the subject of discussion in the city council last evening. Rumors of offers to be made along these lines by private companies, and the financial standing of the city, were the subject of discussion in the city council last evening.

It is probable that a definite offer will be made by the city of Edmonton, in a short time. Another company, through their agents, has also made an offer, and it is understood that a Pacific coast company are considering the proposition.

It was decided that in the event of the city selling the street railway system and franchises, the city would be required to state definitely what terms they were willing to accept, and accordingly gave up some old copies of the street railway agreement. The city proceeded to discuss it clause by clause.

It was decided that in the event of the city selling the street railway system and franchises, the city would be required to state definitely what terms they were willing to accept, and accordingly gave up some old copies of the street railway agreement.

## May Use Concrete Pavement.

City Engineer Keesley recommended that the street from the river to the city hall be paved with concrete. This would save \$3,000 on the street from the river to the city hall. The street from the river to the city hall is now paved with asphalt.

The tender for the supply of the \$10,000 worth of material for the street from the river to the city hall was opened last evening in committee. The lowest tenders for the street from the river to the city hall were for \$10,000.

## FOSTER'S FORECASTS.

The Weather in Store According to

Eminent Forecasters.

Washington, D.C., April 13.—Last

night's forecasts of disturbances

to cross continent 9 to 13, with waves

9 to 12, and waves 11 to 13. Next day

disturbance will reach Pacific slope

by 10 a.m. of great central valleys in

16, eastern states 16, with waves

16 to 18, great central valleys 14, great

central valleys 16, eastern states 16.

Cold wave will cross Pacific slope

about 17, great central valleys 17,

eastern states 21. This will be a

moderate disturbance, as to wind

force, but moderate because of its

high temperatures. Its east wave

will cross a long period of very

warm weather and some rain may

be expected as the cold wave comes

in. This cold wave will also be

moderate, and frosts will remain far

from the northward.

About and immediately after April

14, a storm wave of moderate intensi-

ty will be near midday 16 and will

cross annually high temperatures

and dry weather. No very severe

storms are expected, but the distur-

bance will reach their greatest intensi-

ties about April 16.

In Maryland, Virginia, District of

Columbia and southeast quarter of the

United States, temperatures are ex-

pected to average much lower than

in northern states, great central val-

leys and Canada. The coldest part

of April in the southeast quarter of

the continent will occur about

April 20.—My advice to farmers and

planters is to the press of the season.

have proven satisfactory and long

end, an expecting good prices to

continue, reaching the high point

about last of June.

Not from the weather bureau, as

mentioned, but from Professor Clayton,

of Blue Hill observatory. That was

the observation is connected with

Harvard College, is of high standing

and Professor Clayton is the chief

meteorologist. The weather bureau

has published his system, in its chief

organ, at considerable expense, for an

example, to illustrate. Professor

Clayton holds that temperature waves

on several days in length, slowly cross

the continent from west to east, and

that other waves of less length cross

the continent more rapidly moving in

the same direction. He does not give

these two classes of temperature

waves definite lengths, but we are left

to infer that they are about 3 and 7

days, respectively, the shorter waves

crossing the continent in about 4 and

the long waves in about 5 days. He

does not contend that these waves are

regular in their lengths or velocity,

but that the short waves form on the

long waves.

I can see no difference between this

theory and that of Professor Bigelow

except that Bigelow adopted a 27-day

temperature curve, leaving in it curves

of 6 or 7 days and short curves form-

ing on these. Bigelow also claims

that his 27-day curve was caused by

rotation of the sun on its axis in

27 days.

Bigelow's system and Clayton's each

have merits, however they contain

facts, but whether they are practical

is another question. The differ-

is in fitting either system to a special storm wave. There are too many like storms. While there are actual averages of weather conditions they may never fit actual conditions as the case with storms. As I see it, the farmer must work it out separately by the results.

## NEW GERMAN CRUISER.

Launching Witnessed by Prince Henry

—Largest to Navy.

Kiel, Germany, April 13.—The

new German cruiser, launched

from the imperial navy yard at 11

o'clock this morning in the presence

of Prince Henry of Prussia and many

officials of the admiralty. Gen-

darm Von Der Goltz, commander of

the navy, delivered the war-

ship. The cruiser is built entirely of

steel with a displacement of 12,000

tons. The Schenkers which dis-

placed only 11,000 tons, was hitherto

the largest German cruiser. The es-

timated cost of construction is \$5,000,000

of which \$4,000,000 will be spent

in the hull and machinery, while the

armament will cost \$1,000,000 and

the torpedo armament \$100,000. Her com-

mander will be 170 officers and men.

The cruiser is to be fitted with

a displacement of 12,000 tons, is

opposed to 600 on the Behn Meyer.

Her contract speed is 20 knots an

hour. She is to carry ten 11 inch

guns, 40 feet in length, throwing a

10 pound projectile, besides a number

of 3 inch light quick-firing, for-

warding a 20 pound shell, defense

against torpedo boat attacks. Three

smaller weapons are to be fitted with

a 100 and extremely simple automatic

loading and ejecting attachment just

invented at the Krupp works, by

means of which the rate of fire, in-

creased ten fold per minute, is in-

creased to nearly forty fold. In case

of attachment gets out of order the

gun itself is not affected and the

gun is fired at the former rate of ten

shots a minute. The completed ship

will be alone in her class as during

her construction it was decided that

the later cruisers to be laid down, of

which the "P" is under construction

at Hamburg, are to displace 20,000

tons and to be fitted with turbines.

## IN FAVOR OF DANCING.

New York Conference Want to Abolish

Church Rule.

New York, April 13.—Young men

and women of the Western faith may

be permitted to dance if their

conscience permit. Yesterday the

New York Methodist Episcopal confer-

ence adopted a resolution moni-

tizing the highest body of the

church, which meets next month in

Baltimore, to amend the famous con-

vention 248, which prohibits temperance

and other amusements.

If the General conference adopts

the suggestion of the New York body,

which is the most influential in the

church, the younger generation prob-

ably will have more leeway in amuse-

ments.

"You may ask for a good thing and never get it. But, if you don't ask, you are sure not to get it."

In worth and wear—  
style and satisfaction  
—Progress Brand  
Clothing will well  
repay you for the  
slight trouble of  
asking for it.

Sweet Peas 25c	

The Supply is very Limited—ORDER EARLY

We are making special arrangements for handling the rush of our Easter trade and request  
customers to help us by buying Early. Phone orders given most careful attention.

## SPORTING NEWS

## TRUSCOTT WINS IN SEVENTH.

Some splendid boxing gave the sporting element of Edmonton an interesting hour and a half last night in the fight between Billy Truscott and Billy Miller. A heavy crowd of spectators turned out to see the exhibition of the two fighters, which proved to be the best sample ever offered in Edmonton. The preliminaries were both fast and interesting, and both had the earmarks of good boxing. The final bout was of the feather variety and was probably the best that has been offered to the lovers of the bête art in the city. Truscott, the little lightweight champion of Australia, acted so gentlemanly in the ring that he was much admired by the crowd and should prove a good drawing card for another bout here. Buckler, who at one time was the middle weight champion of the entire state, was a fine fighter, but did not show the same familiar fighting in ring tactics as Truscott.

The first preliminary was between Dick Bradshaw and Angus McDonald for four 2 min. rounds, and after some fast fighting in which both of the men fought hard, Bradshaw got the decision.

The second bout was between Kid King and Soldier Moffat for three min. rounds. These two were feather weights, but from the start the pace was fast and the fight was a real one. The first round was a draw, the second in favor of King and King had the odds in the third, winning the bout.

A. Miguelon, postmaster at Wetaskiwin, made very capable referee and acted both the fighters and the spectators with the beginning of the final match, he introduced Harry Lombard, of Chicago, who fought Billy Lauder in Calgary last month and made the statement that an effort would be made to arrange a bout between the two to take place in Edmonton.

In the third round Truscott and Buckler entered the ring. Alex. Macdonald, of the St. Helens, was chosen to act as referee and after giving the men their instructions, introduced them. They shook hands, retired to their corners and as the bell rang both came out on the run. Buckler swung hard and tried to win the fight by a quick finish, while Truscott was fighting wisely. Buckler landed on the jaw, and received a counter on the neck. Some rapid exchanges and clever foot work completed the round which was slightly in Buckler's favor.

The second round opened even more furiously than the first, with Buckler on the offensive. His heavier weight showed in spots and particularly in clinches. On one occasion the referee was calling for a break. Buckler fought slightly and was warned. After that he pushed the fight and landed the little fellow kept away from him and very few blows. Truscott's fighting once but was up like a flash and away again. The honors of this round were even.

In the third round both came "up strong," but the pace was not so hot as in the first. The men exchanged furiously and Truscott went on to tell on a slip. Buckler fought and the referee offered the fight on a "draw," but he refused to accept it, saying, "No, we'll fight on." Two seconds later he got to Buckler's jaw hard, and he went down for the count of seven. At 9 he was staggering but avoided a ten-second rest of Truscott's.

The fourth round Buckler seemed a little the worse for wear. There was not the same vim in his swings and he was not so hot as in the first. Truscott did all the fighting. The little fellow led and fought all the way but did not land. The count was in favor of Truscott.

The fifth was just a repetition of the fourth, with the odds in Truscott's favor again.

The sixth started fast. Buckler landed on the chest and received one on the jaw in return. Truscott landed on the body but Buckler blocked the poke on the jaw. Buckler landed on the chest but he just kept out of the bag, fellow's reach. Buckler slipped, but Truscott helped him up to his feet. Truscott assumed the offensive and got to the far hand. Buckler retorted with a trifling swing which missed its mark.

Truscott was doing the fighting and the round ended in his favor. The seventh started with Truscott on the offensive. Buckler tried to throw himself to save punishment. A furious exchange of body blows followed. Truscott landed on the jaw hard. Buckler assumed the offensive and landed with his right. He missed and the fight started to slip. It gave Truscott an opening and he landed a hard right, he landed on the point of the jaw. Buckler's head hit the floor with a resounding crack. The referee counted ten and awarded the fight to Truscott.

## LAUDER VS. MILLER.

Vancouver, April 13.—There is every prospect of a match being arranged between Billy Lauder, the noted Calgary lightweight, and Driver Miller, the local boxer.

Miller has received a telegram from Lauder stating that he will be in the city on April 17 and is willing to arrange a match with Miller on or before April 20.

This is a match that local followers of boxing have been anxious to see for some time. Both of the men are clever and ready fighters and should put up a great contest. While Lauder may have a shade the better of it in science, Miller has more muscle and is a better fighter. The World to that effect and adds that a challenge be issued for him to any place acted in Vancouver for a match at any weight between 135 and 145 pounds.

Krant writes that he is particularly anxious to meet Billy Lauder or Billy Smith, the lightweight champion of Alaska. The Seattle man has a match on for the United city on April 20, and may be open for a later engagement here any time after the end of the month.

## SCOTCHMAN WIN.

Calgary, April 13.—The annual foot ball game between teams representing England and Scotland played last night was won by the Scotchmen by a score of two to all, both games being scored during the second half. The winning team is composed of members of the cathedral team who won the People's Shield at Winnipeg last year.

## TO SAVE A HIT.

Regular methods are in use for getting after the big league champion batsmen. In general, the leading National League pitcher, and including those on the club team, are attacked in about this manner:

Seminar, New York—Low curve over inside corner of the plate. When "Cy" Young is in the hole give him wild pitches and hit it.

New York—If he stands in the front part of the box, while a fast one is coming, throw a curve over his head. If he is back, he will strike and one ball on him, it is good policy, say the cubs, to serve one over the outside corner. For Mike would be apt to let it go. Buckler, the pitcher, to waste that ball. If, however, he has only one strike and two balls, he would be pretty sure to murder a curve on the outside, for he would be laying for something of that kind. Buckler is liable to hit any kind of a ball, and the pitcher must keep working with him and have "something on" the ball all the time.

Wagner, Pittsburgh—Bentback's system is to start high, fast ones near the German's head. That is Lindgren's policy, too, but Brown and overall work him on a slow ball. Hans is not an easy man to figure at any time, for the inside of the American League, he is liable to hit a wild pitch out of the lot. You are sure quite sure what he is going to do.

## A GREAT BALL TEAM.

According to dope this would make the greatest hitting and fielding team that ever was a baseball uniform: Red Killebrew, 3rd, 373 and 200; Joe Judge, 1st, 363 and 201; Ray Stentz, 2nd, 368 and 274; Hugh Jennings, 3rd, 368 and 274; Harry Steinbock, 4th, 367 and 327; John Kling, 5th, 362 and 312; A. C. Aspin, 6th, 362 and 312. Aspin is a manager, a semi-professional in Chicago this season. Kling and Jennings are managers of Detroit. Killebrew is playing with the Highlanders, Judge is manager at Boston, and Stentz at Providence and all making good.

## BOSTON A DARK HORSE.

Boston, April 13.—Boston, the dark horse of the American league race, looks like a winner. The team is managed by "A. Manager," McGuire says, "who talks of the championship when he is sitting on his hands which is just getting over a case of championship endorsement of the local is waiting his time. We are going to play the best game we know how, to win every game that we can. Just as often as we are able to beat somebody else we shall feel so good that we will win. That is, we will win the championship or is likely to win it. If I should say that there are other clubs in the American League that they are going to win which still will be thinking when October is past and gone."

## WAGGELL NOT MISSED.

Philadelphia, April 13.—When Connie Mack let Wagdell go, who is considered by many of the fans the greatest left-hand pitcher in the game, there was a decided difference of opinion among the followers of the national game, but few of the Athletics think it was a wise move. He says:

"The Athletics will do better with Rube of the team than when he was here. Some of the players could get along with him, and some of them could not. The fact is, Wagdell will help us against the teams that have been made over this year. We can play better ball than some of them when they are going at their best. We have a good chance to win the championship as far as the league and better picture some of them."

## MUST NOT WEAR PICTURE HATS.

Tulsa, April 13.—Manager Arner announced that he would not have the latest "in picture" hats of the Tulsa park players, but that he would have them all and abstract the view of the game. He said that he would not have them on his players with the team at Chattanooga. He said he counted twenty girls in one party at the Tulsa park last night and the crowd behind could not see anything. The editor here has caused a sensation among the feminine fans.

## SPORTING BRIEVITIES.

The Winnipeg bicyclists have to pay a home fee of \$50, after the first of May in order to use their machine, on the public thoroughfares. This is the result of a widely-circulated petition for that purpose last fall.

Ray C. Beyer, New York, the standing star of the amateur game of America, who was suspended recently for competing in unlicensed games, has been reinstated by the national committee of the Metropolitan Association of the Amateur Athletic Union.

Ormond B. Haycock, and Miss Anna Haycock, champion figure skaters of Canada and holders of the Minto cups, have been invited to go to Australia to give exhibitions in skating under the auspices of the Melbourne Skating union.

Billy Neil, manager of Tommy Barnes, the champion pugilist, who is at present in England, arrived in New York on the steamer Louisiana. Neil will try to arrange a match with Johnson, and it is said he will cover Johnson's deposit of \$2,500 with \$2,500 additional.

As a result of a wager, Ed. Gallagher, of New York City, an athlete, lost his life yesterday in Butler Creek, Arkansas, in the presence of hundreds of spectators who had gathered to watch him attempt to ride the dam in a runboat. The rower went over the falls and was then into the rapids and swallowed in a raging torrent.

At the annual meeting of the St. Charles county club polo club, of Winnipeg, officers were elected for the season as follows: Patron, C. C. Chisholm; president, W. R. Allan; press, F. W. Sprague; vice-president, T. L. McInnes; H. F. Oiler, polo manager of the Canadian; manager, Capt. Cape; committee, Major McDonald, J. K. Kilgus, H. B. Shaw.

President Barney Dreyfus, of the Pittsburgh baseball team left the night after for Chicago, where he has an arrangement whereby he picks up Hans Wagner, and will take him to Wladimir, who has him in the rank of Fred Clarke for three days. Wagner, who has been visiting in Michigan sent word to his agent, Tim Dwyer, killed all hope that he might sign a contract in the west and go on with the Pittsburgh team. "Tell my friends that I would not play ball for \$25,000 this year," he writes. "I am going to Clark's ranch, but not to play ball."

A meeting of the executive of the Wanderers Hockey Club, held in Montreal last week to close up the business of the year, decided that the Assn. Cup, which has been the property of the Wanderers since 1910, as the consequence of their having won it on three occasions, should be presented to Cliff Blackford, the Wanderers' right wing and captain. Blackford played for the team in each of the years they won the cup, and for two seasons was captain of the team. All the way through he has continued to be an amateur. His name will be engraved on the cup and it will become his personal property.

With the exception of two new rules enacted for the joint rules committee of the National League and the American League in February, the baseball code remains the same for the year. The new rule will prove popular, as it prohibits a pitcher from the ball and the ball and the pitcher. The other new rule relates to the scoring of sacrifice hits. The amendment to this rule reads as follows: "A sacrifice hit shall also be accorded to a batsman, when no one is out when but one man is out, when he hits a fly ball that is caught, but results in a runner being scored. Hereafter a batter receiving no credit for scoring a run on a sacrifice hit shall be considered. This will naturally have tendency to root batting in general all along the line as it will not count a time at bat."

BURNS TO MEET JOHNSON. New York, April 13.—Tommy Barnes will tomorrow sign to meet J. Johnson, the negro heavyweight of Philadelphia, who has been seeking a meeting for some months. The managers met this afternoon and would have signed at once but McDonald, awaiting for Barnes' father.

SHAMROCKS ARE KICKING. Montreal, April 13.—At an adjourned meeting tonight of the N.E.A., as a protest against their dates in the harvest schedule, the Shamrocks refused to accept the date of the N.E.A. and through their representative, Harry McLaughlin and Tom Slattery, proposed to withdraw from the league, let it be over ruled. The Shamrocks particularly wanted an open date on their own day, presumably for the purpose of playing for the Minto cup, it is expected a challenge will be sent in, but the league decided to have the Shamrocks play in Toronto on May 1. The schedule was completed with the Shamrocks having their date, which the Shamrocks protesting they would not accept. It is thought the matter will be tried amicably.

HACK STILL COMPLAINING. London, April 13.—Hackschmidt, on his arrival here, was asked by an interviewer, if he would meet Geth again, if he would meet Mr. Geth again, with a referee who could be decided upon to guarantee fair play. I would be glad to meet him, but he has not agreed to meet me. He never stopped for an instant this insulting remarks, abusing me all the time speaking in my face, while with his jagged yellow moustache he tried repeatedly to gouge out my eyes. I took in good stead, but my feelings were not so much as he had wonderful endurance and training."

SALE JUST LASTS TEN DAYS. THE ACME CO. LTD. CORNER JASPER AVENUE AND SECOND STREET.

Own a Fruit Farm at Kelowna in the OKANAGAN VALLEY AND BE INDEPENDENT

The Okanagan Valley is the most favored by nature of all the famous valleys of British Columbia. Every abundance that kindly nature can bestow is here abundantly provided: Richest Soil, Perfect Climate, Abundant Water for Irrigation, no Scrub, no Rock, level like the Prairies.

The market for the products of the Okanagan Valley is practically unlimited. The great prairie is rapidly filling up, and every addition to the prairie population is another consumer of Okanagan fruit. Prices will naturally advance since fruit lands are limited in extent, and now is the best time to secure a portion of this valuable property. By investing in ten acres of our land you are assured of a splendid income for life. Can you earn \$5,000 a year as easily in any other way?

The Central Okanagan Land and Orchard Co., Ltd.

of Kelowna, who are owners of 6000 acres of the very choicest land in the Kelowna district, will conduct an excursion to leave Edmonton and Strathcona on Monday April 20th at 6 o'clock p.m. and leaving Calgary on Tuesday, April 21st at 6 o'clock in the morning.

FREE TRANSPORTATION from any point in Alberta to anyone purchasing ten acres or more.

Call and see photographs of Land and procure Illustrated booklet.

Join with us and see the beautiful country and secure a home for you will soon want to come in out of the cold.

U. S. TEAM MEETS MONEY.

New York, April 13.—Within the last few days money has been received for the Olympic team fund, but there is a great deal more needed, and it is not received a large team cannot go to the games, and it is in a run-out. Up to date very few athletic clubs have interested themselves in the raising of the necessary money. The New York athletic club has contributed \$1,000 and President Knibbe is now soliciting individual subscriptions among the members of the club.

Curran received from James Pilkington, president of the National Association of Professional Athletes, a check for \$100 as his personal contribution to the fund, and also a check for \$250 from Frank Hamilton.
